Not sure why or how this came to me but I DO NOT support the Lynn Canal Highway project! Juneau can not take care of the current road system. I live on Cohen Drive at mile 22 and if we even see a snow plow it is usually 3-4 days into the storm - about the time we are pushing snow with the front bumpers of our trucks. Okay, that's CBJ...well the state is not much better considering 9 out of 10 times they actually lift the snow plow blade at Lena instead of finishing the road to the end of the fire protection area - mile 22. We get no gravel.....nice when the road is a sheet of ice. This is not just a winter thing - it doesn't get taken care of in the spring/summer - I invite you to take a drive down upper Cohen Drive - valley of the pot holes!

Sincerely,  
Sandra Peterson

Dear Chamber Members,

If you support the ROAD, it is very important. that you submit comments on the STIP (Statewide Transportation Improvement Plan) in support of the project by email by the close of business today. The email address is:

[dot\\_stip@dot.state.ak.us](mailto:dot_stip@dot.state.ak.us)

We need as many emails as possible.

Statements can be simple (see below):

1. I support the Lynn Canal Highway project in the STIP.

2. Please provide full funding for the Lynn Canal Highway project in the STIP.

You can elaborate as much as you want but the key is quantity, not quality. Let's get as many emails as we can submitted to DOT by 4:30 today. And please forward this notice to fellow Lynn Canal Highway supporters.
